Material Safety Data Sheet

Identification

Product Name: Trespa® Solid Composite
Formula: Mixture
Synonyms: High pressure decorative laminate
TSCA Listing: This material is classified as an article and not subject to TSCA.

Hazardous Ingredients

This Product is not regulated under the hazard communication standard, 29CFR1910.1200

Physical Data

Boiling Point (700 mmHg): not applicable
Specific Gravity (H² O= @ 20/20 °C): Not applicable
Vapor Density (Air=1@ 20°C): Not applicable
Percent Volatiles by Volume: Negligible
Ignition Temperature: Not applicable
Thermal Dissolution: 250°C
Appearance And Odor: Rigid sheet with colored face, no odor

Fire and Explosion Hazard Data

Flash Point: Not applicable
Explosion Limits: Not applicable
Extinguishing Media: Use water, carbon dioxide or dry chemical to extinguish fires
Special Fire Fighting Procedures: Wear self-contained breathing apparatus and protective clothing.
Unusual Hazards: none

Reactivity Data

Stability: Stable
Hazardous Polymerization: Will not occur
Conditions to Avoid: none
Materials to Avoid: none
Hazardous Decomposition Products: This material may release toxic fumes in a fire depending on burning conditions (temperature and lack of oxygen). Chemical composition similar to wood; carbon dioxide and water are formed during complete combustion.
Effects of Overexposure/Toxicity Data

**Acute:**
- Ingestion (Swallowing): Not applicable
- Inhalation (Breathing): Not applicable
- Skin Contact: Not applicable
- Eye Contact: Not applicable

**Chronic:**
- Carcinogenicity: This product is not listed in NTP, IARC or OSHA as a carcinogen
- Reproductive: Not applicable
- Mutagenicity: Not applicable
- Target Organs: None

**Exposure Limits**
- OSHA PEL: None established
- ACGIH TLV: None established

**Emergency and First Aid Procedures**
- Ingestion (Swallowing): Not applicable
- Inhalation (Breathing): Not applicable
- Skin Contact: Not applicable
- Eye Contact: Not applicable

**Special Protection Information**
- Respiratory Protection: no respiratory protection required
- Ventilation:
  - Local Exhaust: Recommended when appropriate to control employee exposure
  - Mechanical(General): Not recommended as the sole means of controlling employee exposure
- Protective Gloves: Not required
- Eye Protection: Not required for handling material, but should be worn when machining or sanding material

**Spill or Leak Procedures**
- Steps to be taken if material is released or spilled:
  - Place in a waste disposal container.
- Waste Disposal Method: Disposal must be in accordance with applicable governmental regulations.

**Special Precautions**
- Precautions to be taken in handling and storage: None for employee safety, but recommended handling and storage
  - Methods should be used to preserve the usability of the material.

**Transportation Regulations**
- Not regulated by DOT.¹
